

TUITION BREAKDOWN AND ESTIMATED COSTS

Full-time MBA Class of 2024

CIMBA has long been recognized for program affordability and offers a **superior academic experience that will exceed your expectations at a cost far below than other Europe-based MBA programs**. Also, since most of the other MBA programs take 2 years to complete, you save one year of tuition, fees, and living expenses as well as the opportunity cost of being out of the workforce. The trade-off is that the CIMBA program is far more intensive and demanding, requiring students to be highly motivated and focused.
